IMPORTANT POSITION
AT UNIVERSITY

Mr. Smythe, who succeeded H. H. Brooks, who resigned in August, is the same time, Frank DePauw, chief accountant of the university, was appointed assistant comptroller, the position Mr. Smythe has held along with that of purchasing agent. A new purchasing agent will be appointed at a later date.

The appointments were decided upon at a meeting of the executive committee of the Joint Board of Trustees and Visitors in Indianapolis last week-end. Glen Thompson of Columbus, chairman of the committee, and Howard Shepherd of New York, chairman of the board, joined in making the announcement.

Mr. Smythe first joined the DePauw staff in 1935 as cashier. During the last war he played an important part in the arrangements made to handle DePauw's V-6 and V-12 naval training programs. Leaving DePauw in 1945, he became cashier of the Ripley County bank at Osgood and later assistant secretary of the Peru Trust Company. He returned in 1948 as assistant comptroller and purchasing agent.

Mr. DePauw came to DePauw in 1950 as bookkeeper and was named chief accountant in 1939. Mr. Smythe has been acting comptroller since the resignation of Mr. Brooks.

Messiah Will Be Given Tomorrow

When Handel's oratorio "The Messiah" was first presented in Fishamble Street—thereby sponsoring the event posted notices on the day of the performance requesting "the favor" of the ladies not to come with soloists throughout the oratorio in Fishamble Street—thereby enlarging to a considerable extent the capacity of the auditorium. Hoop skirts will not be a problem this Wednesday evening when the Messiah is given by the Choral Union of the university at Gobin church but space may be at a premium for music lovers in the community if the weather man is in a charitable Christmas mood.

For the first time in several years the University orchestra will accompany the chorus and soloists throughout the oratorio assisted by Dr. Van Demman Thompson, organist.

Another notable feature of this year's performance will be the guest tenor, Myron Taylor, formerly of the Metropolitan Opera Co., in New York who has sung the tenor role in The Messiah several times in Indiana University.

Other soloists will be Evelyn Gibson, soprano of the School of Music, Margery MacDaniel, contralto, senior in the School of Music and Charles Aschmann, instructor in the Speech Department. Mr. Aschmann has appeared in leading bass roles in many of the Little Theatre productions as a student at DePauw.

George Gove, director of choral music at DePauw, will conduct the performance, scheduled to start at 8:15 in Gobin Methodist church.

Daily Banner Is Ideal Xmas Gift

The ideal Christmas gift for a son or relation in the service, for a neighbor who has moved away from Putnam county, or possibly a friend who still lives here is a subscription to The Daily Banner. For a service man sitting in an army camp or on a lonely island, it is like a letter from home. For a neighbor who has moved away, it is like a visit from an old friend. A gift subscription to The Daily Banner is a reasonable gift, yet one that will be appreciated every day in the coming year.

Easy to Obtain
It is very easy to obtain a gift subscription to The Daily Banner. Just stop by the Banner office and the girl at the counter will be glad to accommodate you. Or better still, call or see one of your favorite contestants in the "Vacation of Your Dreams" contest. He or she will be glad to stop by your house and pick up the gift subscription. It will help that contestant in the contest and will mean little or no trouble to you. Now is the time to send your gift subscriptions for Christmas.

The articles were taken during the morning services, probably around 11:00 a. m. Greencastle police have been informed of the thefts but have no tangible information to work on.

Rev. Walrond will greatly appreciate any information that may lead to the apprehension of the thief, and anyone having any information, is asked to phone 767.

Plans are being made to have each member of the team understood by a World War II veteran.

Red Units Point Toward Seoul

TOKYO, Dec. 12 (UP)—Red China's invasion army, spearheaded by two Mongolian cavalry divisions, turned toward central Korea today for an apparent drive to outflank the new United Nations defense line guarding Seoul.

Gen. Douglas MacArthur's headquarters reported that the tough Mongolian cavalrymen topped the number of Chinese divisions facing the 160,000 United Nations troops in Korea to 27—more than 300,000 men.

Another 700,000 Chinese are believed in reserve in rear areas. A headquarters communiqué reported the bulk of the Chinese Reds moving increasingly toward the rugged center of the Korean Peninsula as they advanced along the coast from the Pyongyang area.

A Chinese thrust down the center of Korea might turn the Eastern end of the United Nations 8th army defense line around Seoul and threaten the capital's communications to Taegu and Pusan in the south.

For the moment, however, the United Nations forces were out of contact with the Chinese Red on both western and northwestern fronts.

Uranium Found In New Mexico

GRANTS, N. M., Dec. 12. (UP)—The discovery of what may be the world's largest uranium field gave indications today of turning this community into an old-fashioned western boom town.

Motor courts were reported "loaded with geologists and engineers," while other reports said prospectors and persons attracted by the discovery were "flocking" to this town in northwestern New Mexico.

The uranium field, located on Santa Fe Railroad land between here and Gallup, N. M., was discovered by 59-year-old Paddy Martinez, strawboss over Navajo Indian laborers in carrot fields near here. Martinez, an Indian himself, lives on the reservation just outside Grants.

Geologists for the Santa Fe Railroad said the ore was contained in at least 10,000,000 tons of carbonate-bearing rock and ran from one-tenth to a quarter of one per cent in uranium oxide.

It was estimated the ore would be worth from \$5 to \$15 a ton. The government's Atomic Energy Commission buys all uranium ore above \$5 a ton.

The commission also has promised a \$10,000 reward to each person discovering rock bearing a certain percentage uranium oxide. Thus far, no discovery in the U. S. has contained a sufficient percentage to permit payment of the reward which prospectors say is "almost impossible" to earn.

"We understand each other's point of view."
"Do you think your talks will help world peace?" he was asked.
"Yes, I hope so," he said.

EXTRA!

ST. PETERSBURG, Fla., Dec. 12.—(INS)—Baseball Commissioner A. B. Chandler today criticized as contrary to the "American pattern" the secret meeting at which he was abruptly ousted from his \$65,000-a-year job.

Chandler said he will continue in office "until the last second" of his term, which expires on May 1, 1952.

The commissioner said that nine of the 16 club owners voted last night for his retention. He needed 12 favorable votes to receive a new contract.

Meanwhile baseball executives were meeting behind closed doors, reportedly setting up machinery to run the game with Chandler only a figurehead for the balance of his term. It was reported that Chandler's statement that he will not quit was inspired by an offer of \$100,000—the remaining salary due him—if he would resign now.

WASHINGTON, Dec. 12.—

(INS)—The State Department announced today that Secretary of State Acheson will leave Washington by plane late Sunday for Brussels where it is hoped final plans for speeding Europe's defenses will be approved.

Just before the vote, India's Sir Benegal Rau, quoted Communist China's spokesman, Gen. Wu as telling him that the Peiping government wants no war with the United Nations or the United States.

U. S. Delegate Warren R. Austin said the resolution "opens channels" for the peaceful (Continued on Page 8)

NATION AWAITS PROCLAMATION BY PRESIDENT

MR. TRUMAN EXPECTED TO
DECLARE NATIONAL
EMERGENCY

WASHINGTON, Dec. 12.—(INS)—President Truman has decided to address the nation by radio this week on the new steps the government will take to mobilize U. S. armed and industrial strength to meet the critical world situation.

Administration sources said that the President will proclaim a national emergency within 48 hours, setting the stage for wage-price-materials controls.

These sources added that the proclamation will be issued shortly after the President confers Wednesday with congressional leaders of both parties.

WASHINGTON, Dec. 12—

President Truman today sought to clear political hurdles to a national emergency proclamation that probably will be accompanied by a plea for voluntary wage and price controls.

After two long conferences with his top congressional lieutenants and economic advisers yesterday, Mr. Truman called another parley with House and Senate leaders of both parties for tomorrow morning.

He was expected to ask—and get—bipartisan support for drastic action to alert the American people to their danger.

Chairman Robert A. Taft, O. of the senate GOP policy committee, was among those invited to the White House. A constant critic of administration domestic policies, Taft had been left out of previous emergency conferences.

The White House indicated that the president has about made up his mind to declare a state of emergency later this week and to explain the gravity of the world crisis in a radio broadcast to the nation.

Stephen T. Early, acting presidential press secretary, said a decision on how to put the brakes on prices also is in the making. Talk persisted that the president might order an immediate wage-price freeze, but informed sources said this would be practically impossible to enforce right now.

Court Order Stops Recount

INDIANAPOLIS, Dec. 12 — (UP)—An Indiana Supreme Court order stopped a recount of state senatorial votes in Gibson and Pike counties today.

The court granted the writ of prohibition against Gibson Circuit judge A. Dale Eby and Pike circuit judge Lester Nixon at the request of state Sen. Edwin Beaman, R., Princeton, who was declared elected by 64 votes after the Nov. 7 election.

Charles Killon, democrat defeated by Beaman, asked for the recount, which started yesterday in both counties.

The high court order set Dec. 21 for arguments by Eby and Nixon why the recount should not be stopped permanently.

The fate of the Republican legislative program hinges on Beaman's re-election, since the senate would be divided 25 to 25 if Killon won. With Reaman the GOP has a 26 to 24 majority in the upper house.

NEW METHOD

CHICAGO, Dec. 12 (UP)—A method of x-raying arteries in the brain that will be a "valuable" help in diagnosing various types of brain injuries was described by Dr. Ralph C. Moore of the University of Nebraska before the Radiological Society of North America.

The technique involves injecting an opaque diodrast solution in the internal carotid artery. The solution makes it possible to visualize both anterior and middle cerebral arteries on a single X-ray film and indicates injuries such as vascular lesions of the brain, neoplasms, abscesses, hematomas and others, Moore said yesterday.

In the past, air has been injected into the artery instead of the diodrast but Moore said this newer procedure is "accurate, less dangerous and less distressing to the patient than air studies."

Attend Executive Board Session

Miss Meryl Michael, president of the Greencastle Teachers Association, and Mrs. Mildred Todd, member of the executive board attended the Executive Board meeting of the Indiana Classroom Teachers Association held at the Lincoln Hotel in Indianapolis on Saturday, December 9.

At the morning session special reports were given on area meetings, committee workshops and conferences which have been held in the state this fall. Following these special reports, Robert H. Wyatt, Executive Secretary of the Indiana State Teachers Association discussed legislative problems in view of legislation to come before the State Assembly in January 1951. He emphasized the tremendous increase in birth rate from 1932 to 1949 which requires a corresponding increase in school expenditures.

After the luncheon, Mary Virginia Morris, president of the National Education Association Department of Classroom Teachers was the guest speaker. Miss Morris spoke regarding the National Conference on Mobilization of Education for the Emergency which was held in Washington in September. Miss Morris said, "I feel that education is as important to defense as manufacturing tanks or training troops. Children and youth are America's greatest resource and we must conserve this resource." She emphasized that the teachers' great responsibility is to train children for leadership as they have never before been prepared before. Today's children will be tomorrow's leaders in the reconstruction period. When the crisis is over, children will need all that education can provide in the way of poise, stability, brain power to cope with world situations, ability to make decisions, and to analyze problems.

Troops Fire On Moslem Rioters

SINGAPORE, Dec. 12—(UP)—The Singapore supreme court, ignoring savage race riots in which 10 persons have been killed, ruled today that 14-year-old "jungle girl" Maria Bertha Her-togh's marriage to a Moslem was illegal and that she should return to Holland with her parents.

The rules set off a new wave of anti-white rioting outside the town hall where the court was sitting. The violence was quickly suppressed by British tomnies and Gurkhas who charged with fixed bayonets.

Casualties from today's rioting raised the injured toll to more than 140. Four of those killed were Britons. Other dead were two Eurasians, one Indian and three unidentified.

Maria's parents, who returned to Singapore to claim their daughter, reserved airplane passage home and were expected to fly to Holland with Maria today.

But centuries of pent-up racial hatred, concentrated now in protest against taking the child bride from her Moslem husband, still flamed in Singapore.

British authorities clamped on a dusk to dawn curfew and told whites to remain off the streets at all hours.

They also mobilized all available soldiers and policemen but admitted "there is no improvement in the situation."

When the court's verdict was announced, a mob of 200 natives,

ists, broke into a frenzy. British tomnies and Gurkhas raced through the littered streets in armored cars and charged the mob, injuring some and arresting seven. The mob then broke

Proposal Heard By UN Assembly

LAKE SUCCESS, N. Y., Dec. 12—Arab-Asian proposals for a cease fire in Korea and a seven-nation peace conference on the entire far Eastern crisis go be-

fore the United Nations today.

Hammered out in a day-long conference yesterday among 13 Arab and Asian countries, the proposals, contained in companion resolutions, provide:

1—That General Assembly president Nasrollah Entezam and two others serve on a commission to work out details of obtaining a cease fire in Korea.

2—That the Assembly name seven nations to a peace commission to discuss a general settlement of the oriental crisis.

The resolution was put before the General Assembly's political committee at 10:45 A. M. EST.

The proposals obviously were designed to be acceptable to both east and west, but neither side's position was clear beyond doubt. The United States has insisted that a settlement of the Korean war must not be linked with any other problem. This obstacle was overcome by putting the cease fire proposal in a separate resolution.

SEOUL, Korea, Dec. 12—President Syngman Rhee said today he opposes any cease fire agreement which would leave Chinese Communist troops in north Korea.

It would be merely "a post-

ponement of time when these same forces would resume the attempt to drive south for Pusan", the South Korean president said.

However, he said, a cease fire which brought about a Chinese withdrawal, permitting the unification of the country, would be acceptable to his government.

In a statement to the United Press, the white-haired, 75 year old Rhee said:

"I do not believe the Chinese have any other intention but to try to drive out the United Nations forces, to destroy the republic of Korea, and to add the Korean peninsula to the Soviet empire."

Looking at Life

RICH BRANDEIS

Here is another wonderful scheme on which I am now working, a scheme that will do more for humanity than anything else now in existence.

Unfortunately, like most of my other schemes on which I

have from time to time reported, this one will probably also fail by the wayside.

It is just too good.

My idea is an "Institute for the Retardment of Progress."

By the work of these organizations wonders have been accomplished.

We travel faster than we ever did before. Thus we have more accidents and more people get killed and maimed than before all this progress began.

We have perfected more powerful weapons than our predecessors ever dreamed of. Thus we can slay a thousand men with one modern bomb where they could dispose of only one with their old blunderbusses.

In the foolish old days we used to wend our weary way through winter snows to our little churches, where our local organist played her wheezy little organ and where the local choir sang old-fashioned hymns.

We got pretty close to God that way, but it was a lot of trouble. Yet, we really felt that we were in God's house and his welcome guests.

How different nowadays! We sit in our living rooms and at our television and radio sets and watch and listen to a Sunday service that is more like a theatrical production than a church.

It is magnificent! Everything is there—except God.

Yes, we have indeed made a lot of progress.

But what have we accomplished by it?

A corps of scientists at the Smithsonian Institution are now examining the remains of prehistoric man.

They have already found that we still have the same ailments and complaints that man had 4,000 or more years ago.

According to the research doctors in the old days there wasn't much people could do about their diseases. They just let them run their course, and died.

I predict that in spite of all the medical progress, in 4,000 years all of us, including the Smithsonians, will be just as dead as those whose bones they are now examining.

But back to my Institute for

the Retardment of Progress.

We shan't bother about bones or bodies at all. We shall give all our attention to the spiritual re-development of man.

We shall put man back where he belongs. We shall restore his humility. We shall teach him to walk again—not only with his legs but with his mind and his soul. We shall show him that the most wonderful sights and visions are not on a movie or a television screen but INSIDE of him.

We shall—but, by golly, I am just realizing that we don't need my Institute at all.

It is already in existence—right in our own towns, in our own homes in our own hearts. If we'll just use it.

IF SILENCE is golden, as the old saying has it, then sound must be even more so. Latest statistics show there are now 3,100 radio and television stations in the U. S.

A Massachusetts town forbids smoking while driving. In other words, puffing is limited to the exhaust pipe.

There are no books in India's new school for fishermen. However, the course probably requires considerable hook work.

The last glacier, geologists now declare, melted only 11,000 years

ago. However, the statisticians' contention that winters are used to be.

Folk in a British town report sighting a flying saucer. Thanks, we used to see 'em all the time—when dirigibles were popular.

For his adult competitors it must have gone against the grain to see that southern 13-year-old was a wheat growing title.

No matter how popular a television puppet show may be, it's out the man at the next desk. It's success hangs by a thread.

Tigers Travel To Ball State

DePauw's basketball Tigers travel to Ball State Wednesday attempting to break a three-year jinx on the Cardinal home floor. Not since 1946 have the Tigers been able to beat the State squad at Ball gymnasium, although they have consistently shipped them on the Greencastle hardwood. Last season the Cardinals won 65-57 on their own court, while DePauw took its home contest, 62-47.

Ball State showed its home floor strength Saturday, holding a highly-rated Valparaiso squad to a narrow 54-52 victory. It was the second defeat against one triumph for the Cardinals.

At the same time, DePauw ran into a zone defense at Earlham that held the high-scoring Tigers to a 44-36 margin. In five games, Coach Jay McCreary's men have lost but two—to Indiana and Iowa.

Heading the Ball State attack will be guard Bob Newton. He scored 23 points against Valparaiso and has averaged better than 16 points a game this season. Ball State holds a 17-13 series edge over DePauw since the two schools began cage competition in 1927.

OBITUARY

Sarah Dickinson Morris, daughter of John and Martha McClain Dickinson was born near Avon Indiana, September 23, 1864 and departed this life at the Jones Nursing Home in Spencer, Indiana, December 4, 1950 age 86 years 2 months and 9 days.

The younger years of her womanhood were spent as a school teacher. In 1901 she was married to Thomas H. Morris of Cloverdale and it was here in this vicinity that she lived most of her life. To this union were born three children, Mary Mable, Alberta Frances, and Edna Mae. She also was mother to her stepson Gale Morris.

She was yet a young woman when she was baptized into Christ and was to her death a faithful and devoted member of the Church of Christ at Cloverdale being in attendance and interest as long as her health permitted.

True to the principles of Christianity she strove to rear her beloved family. She was a very industrious woman being always inspired by hope and was ambitious for her family and never did she find any sacrifice too great nor task too difficult if thereby she could enhance their happiness and well being. Patience was one of her virtues.

She was widely known and very highly respected by her many friends in the community and the church. She had been in poor health for the last 4 or 5 years.

She was preceded in death by her daughter Alberta Frances in 1924 and also by her husband in 1938.

Remaining to mourn her passing are her daughters, Miss Mary Mable Morris of Cloverdale; Mrs. Edna Mae Montgomery, of Gosport and a stepson, Gale Morris and wife, Anna, of Indianapolis and 3 grandchildren. The son-in-law Forest Montgomery; one sister Martha Dickinson, Danville Indiana, and other relatives and many many neighbors and friends.

Grandmother Keeps Busy Feels Fine; Takes HADACOL

HADACOL Supplied Vitamins B1, B2, Niacin And Iron Which Her System Lacked

Keeping up with two small grandchildren as well as doing your housework can keep one woman mighty busy. And Mrs. B. Battle, 807 Archer Houston, Texas, does just that. There was a time when Mrs. Battle didn't feel up to all this, though. She was bothered with stomach disturbances and vague aches and pains. Then she heard the news about HADACOL and began taking it. Now she says she feels fine. Mrs. Battle was suffering a deficiency of Vitamins B1, B2, Niacin and Iron which HADACOL contains.

Here is her statement: "I had been troubled with indigestion and aches and pains. I heard about HADACOL and began taking it. After the fifth bottle I began to feel better. I could eat better and rest better and the pains and aches were less. I have now taken 12 bottles and can truthfully say that HADACOL has helped me a lot."

What HADACOL did for Mrs. Battle, it can do for you. You're troubled with vague aches and pains, certain nervousness, indigestion, insomnia, loss of an upper stomach, when you feel a general weakness, when you are due to deficiencies of Vitamins B1, B2, Iron and Niacin.

So what are you waiting for? Don't you see that HADACOL is the kind of product you need? The kind you should buy and take immediately!

Sold On a Strict Money-Back Guarantee

HADACOL even helps build up the hemoglobin content of your blood (when Iron is needed) and course through your body carrying these great health-building elements to every body organ. No wonder HADACOL makes you feel wonderful.

Be kind to yourself! Give yourself a break if you have any deficiencies! Why continue to drag yourself around — a nerve to yourself and your family — when relief may be as close as hand to your nearest drugstore if you suffer a deficiency of Vitamins B1, B2, Niacin and Iron. The great HADACOL is complete too — costs only a small amount a day. Trial size, only 12¢. Large family or hospital size \$3.50. If your druggist does not have HADACOL, write it direct from The LeBlanc Company, Lafayette, Louisiana. Copyright 1950, The LeBlanc Corporation.

UNDERWORLD ROUNDUP

LOS ANGELES, Dec. 12.—Big shots and small fry of the Los Angeles underworld rounded up today in a

search for the slayer of Samuel Rummel, 46, attorney for big-time gamblers.

Mickey Cohen, chief of Rummel, was slated for re-questioning, and officers indicated they would call former gambling ship owner Tony Corneo Stralia, another former client of Rummel.

Jack Dragna, called the "Al Capone of the West" by the governor's Crime Commission, was sought for questioning, as was Tony Brancato, described by police as "a mean strong-arm man."

The Senate Crime Investigating Committee in Washington ordered its California investigators to "look into" the killing for any implications it may have on the group's hearing here next month.

Police Chief William Parker took personal charge of the investigation. He was reluctant to tax the slaying a gangland affair, although officers said it was a "typical" underworld killing.

Rummel was killed early yesterday on the steps of his \$50,000 home in a swank residential section high in the Hollywood hills. Police said the lone gunman, apparently waited for hours for Rummel to return home, then fired a single shotgun blast as Rummel stepped from his car.

The gun, an outdated 12-gauge shotgun, was found on the ground near the tree where the killer stood. Police said it would be almost impossible to trace the owner.
